

PROGRAM AND COURSE OUTCOME

SCIENCE

Course Outcome

1. Conceptual understanding of scientific and technological aspects of the Sciences.
2. Familiarization with developments in Sciences.
3. Understanding of fundamental laws and concepts of different branches of Science.
4. Development of Analytical and Problem Solving Capacity
5. Understanding of Qualitative and Quantitative Analytical Technique.
6. Understanding of Reaction Mechanism and Equation Solving Capabilities.
7. Understanding of Industrial Application of Chemical Processes.
8. Sensitization towards Environmental Awareness and Pollution Control.

Program Outcome

B. Sc.

1. Understanding of fundamental concept, theories and developments.
2. Inculcation of problem solving and independent thinking capacity.
3. Personality and soft skill development.
4. Inculcation of Social and Environmental Awareness.

M.Sc.

1. Development of strong knowledge base and skill sets required in academics and industries.
2. Orientation towards competitive examinations and personality development.
3. Inculcation of Social and Environmental Awareness.

Program Specific Outcome

B. Sc.

1. Familiarization with advanced instrumental techniques in Sciences.
2. Enhanced analytical abilities for independent thinking.
3. Orientation towards post graduate programs and career oriented courses.

PROGRAM AND COURSE OUTCOME

M.Sc.

1. Understanding of advanced scientific concepts.
2. Practical knowledge of application of fundamental and advance theories.
3. Hands on Training on Instruments.
4. Understanding of role of Computer applications in the Sciences.
5. Job oriented training and skill development.
6. Development of aptitude for research and development.
7. Sensitization towards Environmental Awareness and Pollution Control.
8. Personality and soft skill development.

ARTS

Program Outcomes

1. Building sound/strong academic credentials.
2. Application oriented Skill Development.
3. Research Skills Development.
3. Personality and Soft Skill development.
4. Awareness of Global and Local Needs; Building National and International outlook.

Course outcome for BA

1. Awareness and insight into theoretical aspects of the course.
2. Awareness of Practical and Industry Applications of the course.
3. Specific Skills related to the subject.

Course outcome for MA

1. Awareness and insight into theoretical aspects of the course.

PROGRAM AND COURSE OUTCOME

2. Awareness of Practical and Industry Applications of the course.
3. Specific Skills related to the subject.
4. Strong Focus on developing research skills.
5. Industry Internship

COMMERCE

Program & Course Outcomes

1. Knowledge of various accounting concepts
2. Knowledge about accounting procedures, methods and techniques.
3. Practical approach to accounts writing by using software package.
4. Basic micro economic concepts and inculcate an analytical approach to the subject matter.
5. Know the relevance and use of various economic theories.
6. Apply economic reasoning to problems of business.
7. Acquaint the students with the fundamentals of banking.
8. Knowledge of banking concepts and operations.
9. Awareness of banking business and practices.
10. Understand the link between commerce/Business and marketing
11. Understand marketing philosophy and generating ideas for marketing research.
12. Know the relevance of marketing in modern competitive world.
13. Develop an analytical ability to plan for various marketing strategy
