Yes

...

Increase break time

No such

Excellent college no need to improve

My experience with the was good

Teachers should separately conduct guidance sessions for career counseling especially for jobs and what exactly to do after graduation

Satisfied

to conduct more presentations, projects, group discussions etc

All good no need to improve anything

Use of ICT tool while teaching

No suggestion

Magnificent

CIE gets very overwhelming sometimes. Giving 2 assignments, 1 activity, 2 tests, 1 midsem i.e. in total 6 components for one paper and thus for 8 papers (excluding practical) in total 48 CIE components in 1-2 months is too much. And also there are assignments, mock exam for each practical paper.

Also some teachers give more than two assignments and some are very lengthy and time consuming to do.

It's kind of unfair to expect students to do so much given some of us have other responsibilities at our home as well.

And teachers are sometimes very strict about deadlines too

Some students remain absent for a day or two just to complete their assignments or prepare for the tests.

Please reconsider CIE marking system as it is quite stressful and frankly unnecessary and useless.

Just if the timing for early sports training and early classes could be managed.... Due to early morning lectures it's difficult to participate in any other sports activities

It is good

Sports or physical activities should be initiated.

Most teachers are amazing and excellent in teaching while few are not good at explaining or making the topics clear. Too many continuous assignments are given one after the other with short deadline which is very stressful.

The department of Science in the college is helping and encouraging students in every field.

Excellent experience

Should conduct competition for personality development such as debate

Should include more circular activities

No suggestions... every teaching staff is excellent

Should take the students on industrial, research, scientific visits to grab the magnificent motive in future

Is very nice

Nothing special

Classrooms are very small. We don't have benches to seat

Provide different notes to help study

Teachers should provide proper guidance on thier respective subjects

The office has to be improved in talking. They don't talk really properly with students. My mom has also seen how they talked in bad way with me. So I hope you will look forward and do something about this stuff

Don't let the students to cheat in exams

Three observations or suggestions to improve overall teaching and learning experience in institution are:

Use better graphics and visual media to engage students well. ...

Try to reach every student and ask for their doubts. ...

Make teaching a two way interaction.

Making lecture more promptly over to syllabus

Best teachers

Overall the teaching and everything is considered to be good which is provided by the teachers but sometimes it's just that we find differences in question papers about what material is provided to study we find completely different questions in the question papers most of the students struggle in this matter . Thankyou.

Open grounds for games for commerce students.

All good nothing to improve

Teachers must explain about exam, result and admissions and studies related queries to students in detail. We students get confused sometimes about the procedures and it becomes very difficult to solve it and we have to roam multiple times to clg for this

Co-operation and assistance form office and support staff must be excellent and should have a pleasant behavior

In my opinion personal feedback to students as per there performance on any test, quiz and assignment should be given by the teachers frequently.

The use of ICT should be made more fairly by the teachers.

Students who don't come up by themselves but teachers as per his/her understanding on students potential in a particular activity should try to make or encourage students to participate in extracurricular and co-curricular activities.

Also more opportunities for certification courses should be given to students which can be useful to their resumes or can be positive add ons to their resume at nominal price.

Internship workshops should be conducted to help more students to get opportunity of internship through the college.

Teachers should focus more on developing skills and encouraging students to do research work for assignment rather than just telling the students to write 10 page assignments... assignments should be more interactive and innovative rather than telling them to copy from Google and write 10 pages

Good sKills

The timing of lecture should be 10 to 3 pm

teaching is very good but system of waiting for chalan and fees in line is bad

Really nice but why for TYbcom this year not conducted any party , and np

I think teachers should guide students properly if they are not able to do so then plz don't boost the hope that they can help us in our preparation journey

Learning experience is not bad but the college should have teachers that specialised in a subject that they are teaching us, even though they specialised in subject but they don't look or teach like they are .

Teaching and learning experience is good and satisfactory at the end of the day, the only problem we as students face is the staff of the college not maintaining proper punctuality of any given submission of assignment and other admission or inquiry related processes, I have waited for 2 hours past the time what was assigned by the respective subject teacher just for submission of my assignment and after spending so much time on doing the assignment the teachers shamelessly just check the index page of the assignment, not even looking what I have written, the same situation can also be applied when students are collecting their important documents the staff is not available when the need to and there is a lock on the door of the office, calling them via phone is also useless as they switch off their devices or intentionally don't pick up the phone.

Excellent and very good

Can be better'

Everything is good and well.

No sports activities are conducted for the students of bcom , and there is no access for to get any sports equipment and stuff

Very good experience for this collage

All good no complaints I'm happy that I'm one of the abeda clg student

Clg staff and teachers discipline towards teaching are very good... students get helpful notes to write the paperand clg facilities are strong very good....etc

- 1) The bench which cant fit kids can be properly improved
- 2)giving exam result on time
- 3) college timing is way early

Learning is very bad , bcz abeda clg students ko bilkul support nhi karta hai students 4years se wahi clg me padhraha hai to bhi aap log support nhi karte ho 😞

Mera experience is clg me bht ghatiya tha mera one year waste hogaya fur bhi aap log ne thoda nhi socha ki one year waste hora hai.

Thoda sochna chahiye na aap log ko
Main akeli mehnat kar ke fee pay karti hu.

2

Manage things properly and on time

There are lots of students in one classroom, so dividing them in more divisions will be helpful in teaching and learning because a classroom gets too crowded.

Need more time to improve

Please do not cancel the seat of student whose is fail to submit his/her challan before due date, it affects on students carrier as well as on their parents mental health also . 🙏

If all teachers would provide online study material

The teachers should talk to students and parents clearly and friendly and the staff should guide to students and parents on the specific topics like, in admission process

Students need more practical approach than the formality of completing the Assignments.

Teachers are very calm and friendly towards the students. Well experienced in their subject. Best teaching skills and always support us

Hj

Thoda bohot hindi mein explain karna chahiye sir ko personally jaa ke bolte bhi hai hindi mein explain karne but woh explain nai karte

Everything is good 👍

How they teach is overall good but they give exam importance very late, 1 week before exams. So my humble request to the teachers to give the importance of exams earlier. Atleast 3 weeks before exams!!!!

Overall everything is good but morning lecture timing should be change as many students arrive late and miss lectures

More attention should be given to the students and a little understanding should also be given in Hindi.

No.All teachers are Excellent.

As I know facilities and teacher are good in bcs but no one cares for bcom facility. Students coming or not or studying or not no one cares , just teachers come to classroom, teaches and go . Mostly first lecture is not conducted . Students come early morning and waste 1hr sitting in the classroom waiting for the teaches. Facilities are there in the college but not provided to

students. Need to create some kind of professionalism.

Also one point I notice , for bcom teachers only teaches to girls and no one cares for boys!!!! I also think no one will care for this feedback but still 🙄

Teacher support and guidance make us more capable

Practical knowledge, and learning should be encouraged more than just theoretical knowledge. The staff teacher are very helpful and nice, but the non staff members and management is disrespecting,not helpful.

Everything is good

No comments

college staff should talk properly with the students..they should allow the student topo sit where they want top sit..

No any.

Nope, everything is good.

Include more study tours , fun activities

Nope
